Working in close coordination across HQ and Region 10 , EPA and NOAA are proceeding with the final disapproval on January 30 of Oregon's coastal nonpoint program under CZARA. The major issues are related to forestry management. The R10 RA and his NMFS counterpart are in close contact with the state as the decision approaches and the RA will reportedly meet with Congressional members next week. We will continue working with OW, R10 and NOAA press and congressional contacts on key messages.

All:

I forgot to send a reminder yesterday to provide talking points for OW staff meeting. **Please try to send me something by 5pm today** (meeting is at 9am tomorrow).

Thanks, and sorry for the oversight.

Romell
